Art Unit: 2816

1. The amendment filed on 10/15/04 has been received and entered in the case. In view of newly discovered prior art, new grounds of rejection are now set forth. Any inconvenience caused by the delay in citing this new prior art is regretted.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. The disclosure is objected to because of the following informalities: on page 34, line 7, "DataIn 1013" is not seen in Fig. 10. Also on page 34, lines 12 and 14, "M190" should be deleted because it is not seen in Fig. 10 (note also the same problem with regard to "M187" on line 13). On line 17 of page 34, "source" should be changed to --drain-- and "M162" should be deleted. Appropriate correction is required.
4. Claims 1 and 5-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Pilo.

Note Fig. 1, where the "sampling circuit" reads on circuit 43 or circuit 52; the recited "reference node" reads on node 102 or 101; and the recited "timing circuit" reads on the circuitry which provides clock CLK in combination with circuits 36, 37, 38 and 40. Also note Fig. 2 which shows that the input

signal MUXLAT* is provided to node 102 prior to the sense amplifier comparison (started by enabling of the sense amplifier via signal OE).

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Note the remaining references on the attached PTO-892, each of which is seen to anticipate at least independent claims 1 and 5 as well.

6. In view of the above-noted new grounds of rejection not necessitated by applicant's amendments, this action is non-final.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth B. Wells whose telephone number is (571)272-1757. The examiner can normally be reached on Monday through Friday from 8:30am to 5:00pm.
